Objective

I am passionate web developer looking for a place to grow and expand my knowledge on the coding world. With a strong work ethic and lot of language knowledge I'm looking to achieve my first job as a web developer.

Skills

Python, C#, .NET, PHP, HTML5, CSS3, Java, JavaScript, SQL/Databases

Education:

Gateway Technical College, Associates in Applied Science – IT Web Developer

Gateway Technical College, Associates in Applied Science – IT Web Software Developer

Working Experience:

Learning Python:

- Working on Python assignments with students
- Learning the basics of python, making arrays, dictionaries, and using myTurtle
- Taking Images and Data and allowing python to display them using certain functions

Making My Portfolio:

- Using Github as a platform to make changes and make content
- GitHub Account:
<https://github.com/burgeaer>
- Using HTML5, CSS3, and Bootstrap4 to make details in the website shine

Participating in Tech Ladies:

- Networking with others
- Participating in co-working sessions
- Finding ways to help others in their job search
